NSF International / Nonfood Compounds Registration Program

April 5, 2016

Dr. Patrick Vandereecken Dow Corning Europe S.A. Rue Jules Bordet, Parc Industriel Zone C 7180 Seneffe Belgium

RE: DOW CORNING(R) 786 (White)

Category Code: P1

NSF Registration No. 153023

Dear Dr. Patrick Vandereecken:

NSF has processed the application for Registration of **DOW CORNING(R)** 786 (White) to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2013), which are available upon request by contacting NonFood@nsf.org. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

This product is acceptable for use as a sealant (P1) in and around food processing areas. This product may be used in contact with food only as described in 21 CFR section 177.2600 as a rubber article intended for repeated use. Use must be consistent with manufacturer's directions and warnings.

NSF Registration of this product is current when the NSF Registration Number, Category Code, and Registration Mark appear on the NSF-approved product label, and the Registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website (www.nsfwhitebook.org).

NSF Listing of all Registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at www.nsfwhitebook.org. Changes in formulation or label, without the prior written consent of NSF, will void Registration, and will supersede the on-line listing. Please contact your NSF Project Manager or nonfood@nsf.org if you have any questions or concerns pertaining to this letter.

Sincerely,

Carolyn Gillilland

Carolyn Gellilleur
