RE: HandWorks® E2 Foam Hand Cleaner For Food Service & Health Care  
Category Code: E2  
NSF Registration No. 153337

Dear Mrs. Sherry Cook:

NSF has processed the application for Registration of **HandWorks® E2 Foam Hand Cleaner For Food Service & Health Care** to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2013), which are available upon request by contacting [NonFood@nsf.org](mailto:NonFood@nsf.org). The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

**This product is acceptable for use as a hand washing and sanitizing compound (E2) for use in and around food processing areas.**

**This product must be dispensed from adequate dispensers located a sufficient distance from the processing line to preclude accidental product contamination. The hands need not be washed prior to the use of this compound. After the use of the compound, the hands must be thoroughly rinsed with potable water.**

NSF Registration of this product is current when the NSF Registration Number, Category Code, and Registration Mark appear on the NSF-approved product label, and the Registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website ([www.nsfwhitebook.org](http://www.nsfwhitebook.org)).

NSF Listing of all Registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at [www.nsfwhitebook.org](http://www.nsfwhitebook.org). Changes in formulation or label, without the prior written consent of NSF, will void Registration, and will supersede the on-line listing. Please contact your NSF Project Manager or [nonfood@nsf.org](mailto:nonfood@nsf.org) if you have any questions or concerns pertaining to this letter.

Sincerely,

Carolyn Gilliland  
NSF Nonfood Compounds Registration Program
