RE: CRC® Food Grade Contact Cleaner (aerosol)
Category Code: P1
NSF Registration No. 158080

Dear Mr. Bill Anders:

NSF has processed the application for Registration of **CRC® Food Grade Contact Cleaner (aerosol)** to the *NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2017)*, which are available upon request by contacting NonFood@nsf.org. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

This product is acceptable for use as an electronic cleaner with incidental food contact (P1) for use in and around food processing areas. Such compounds may be used to remove dirt, moisture, dust, flux, or oxides from the internal components of electronic or precision equipment. The amount used should be the minimum required to accomplish the desired technical effect on the equipment. Use must also be consistent with the manufacturer's directions and warnings to leave the surface effectively free of any substance which could be transferred to food being processed.

NSF Registration of this product is current when the NSF Registration Mark and Category Code appear on the NSF-approved product label, and the Registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website (www.nsfwhitebook.org).

NSF Listing of all Registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at www.nsfwhitebook.org. Changes in formulation or label, without the prior written consent of NSF, will void Registration, and will supersede the on-line listing. Please contact your NSF Project Manager or nonfood@nsf.org if you have any questions or concerns pertaining to this letter.

Sincerely,

Carolyn Gilliland
