NSF Nonfood Compounds
Registration Program
Company No: 3F590

Certificate of Registration

Chem-Trend LP has achieved Registration status for Lusin® MC1718 to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2022) .

Lusin® MC1718

Category Code: P1

NSF Registration No. 174817

This product is acceptable for use as a mold cleaner or degreaser (P1) for use on mold equipment for metal parts. Before using this product, food products and packaging materials must be removed from the room or carefully protected. A potable water rinse is not required following the use of this product on hard surfaces, provided that the surfaces are adequately wiped-off, so that no visible residue remains. A potable water rinse is required following use of this compound on conditions other than those stated above. The compound must always be used according to applicable label directions.

Registration of this product is current when the NSF Registration Mark and Category Code appear on the product label reviewed by NSF, and the Registered product name is in the NSF White Book™ (www.nsfwhitebook.org).

Listing of all registered nonfood compounds by NSF International is not an endorsement of those compounds or of any performance or efficacy claims made by the manufacturer.
