RE: Bi-Chem TD 800S  
Category Code: L2  
NSF Registration No. 096660

Dear Ms. Helen Harrison:

NSF has processed the application for Registration of **Bi-Chem TD 800S** to the NSF Registration Guidelines for Proprietary Substances and Nonfood Compounds (2004), which are available at <http://www.nsf.org>. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling.

**This product is acceptable for use as a Bacterial/enzyme drain and sewer treatment (L2) for use in and around food processing areas. NSF International must be provided with records of salmonella analysis for each new lot of this enzymatic cleaner prepared for use in such establishments. Analysis must be conducted by a qualified microbiological laboratory.**

**If the above condition is not fulfilled, or, if future analysis shows the presence of salmonellae and/or other pathogenic microorganisms, Registration will be cancelled.**

NSF Registration of this product is current when the NSF Registration Number, Category Code, and Registration Mark appear on the NSF-approved product label, and the registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website (<http://www.nsf.org>). The NSF Registration Mark can be downloaded from the NSF website, at [http://www.nsf.org/business/about\\_NSF/nsf\\_marks\\_download.asp](http://www.nsf.org/business/about_NSF/nsf_marks_download.asp).

NSF Listing of all registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF web site, at <http://www.nsf.org>. Changes in formulation or label, without the prior written consent of NSF, will void registration, and will supersede the on-line listing.

Sincerely,

A handwritten signature in black ink, appearing to read "Carmen Grindatti", with a stylized flourish at the end.

Carmen Grindatti
