Chattanooga, TN 37421

RE: BWT-615
Category Code: G6, G7
NSF Registration No. 124362

Dear W. Scott Roberts

NSF has processed the application for Registration of **BWT-615** to the *NSF Registration Guidelines for Proprietary Substances and Nonfood Compounds (2000)*, which are available at www.nsf.org/usda. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements for appropriate use, ingredient review and labeling verification.

This product is acceptable for **treating boilers or steam lines (G6)** where steam produced may contact edible products and/or cooling systems where the treated water may not contact edible products in and around food processing areas.

This product is acceptable for **treating boilers, steam lines, and/or cooling systems (G7)** where neither the treated water nor the steam produced may contact edible products in and around food processing areas.

This product is NSF Registered when the NSF Registration Number, Category Code, and Registration Mark appear on the NSF approved product label. The NSF Registration Mark can be downloaded from the NSF website, at http://www.nsf.org/mark/download_marks.html.

Registration of compounds by NSF International is in no way to be construed as an endorsement of the compounds, appropriate selection for use, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at <http://www.nsf.org/usda>. Changes in formulation or label, without the prior written consent of NSF, will void registration and will supersede the on-line listing.

Sincerely,

A handwritten signature in dark ink that reads 'Kenji Yano' in a cursive, flowing script.

Kenji Yano, Ph.D.
