Mr. Warren G. Knorr  
COMP-U-CHEM, INC.  
195 DAYTON ROAD  
NEWARK, OH  43055

RE: BP-1209  
Category Code: G6  
NSF Registration No. 134043

Dear Mr. Warren G. Knorr:

NSF has processed the application for Registration of **BP-1209** to the NSF Registration Guidelines for Proprietary Substances and Nonfood Compounds (2004), which are available at http://www.nsf.org. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling.

**This product is acceptable for treating boilers or steam lines (G6) where steam produced may contact edible products and/or cooling systems where the treated water may not contact edible products in and around food processing areas.**

NSF Listing of all registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF web site, at [http://www.nsf.org](http://www.nsf.org). Changes in formulation or label, without the prior written consent of NSF, will void registration, and will supersede the on-line listing.

Sincerely,

Carmen Grindatti  
NSF Nonfood Compounds Registration Program
