## NSF International / Nonfood Compounds Registration Program

---

June 26, 2007

Mr. John Everitt  
STEARNS PACKAGING CORPORATION  
4200 SYCAMORE AVENUE  
P.O. BOX 3216  
MADISON, WI 53704  
UNITED STATES

RE: MARK 11  
Category Code: D2  
NSF Registration No. 135243

Dear Mr. John Everitt:

NSF has processed the application for Registration of **MARK 11** to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2007), which are available at [www.nsfwhitebook.org](http://www.nsfwhitebook.org). The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

**This product is acceptable for use as a sanitizer on all surfaces not always requiring a rinse (D2) in and around food processing areas. Before using this compound, food products and packaging materials must be removed from the room or carefully protected. A potable water rinse is not required following the use of this compound on previously cleaned hard surfaces provided that the surfaces are adequately drained before contact with food so that little or no residue remains which can adulterate or have a deleterious effect on edible products. A potable water rinse is required following use of this compound under conditions other than those stated above. The compound must always be used according to applicable label directions.**

This letter is the only confirmation that the formulation complies with the NSF Guidelines. At your request, the product will not be listed on the NSF website. The product's registration can be verified by contacting NSF directly. Distributors' brands can be sub-registered without disclosing the formulation by having distributors specify the NSF Registration Number in their applications.

NSF Listing of all registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficiency claims made by the manufacturer.

Changes in formulation or label, without the prior written consent of NSF will void registration.

Sincerely,

Jennifer De France  
NSF Nonfood Compounds Registration Program
