Mr. Bruce Freeberg  
CLEARWATER TECH LLC  
850 CAPITOLIO WAY  
SAN LUIS OBISPO, CA 93401

RE: CD1500  
Category Code: P1  
NSF Registration No. 137023

Dear Bruce Freeberg:

NSF has processed the application for Registration of CD1500 to the NSF Registration Guidelines for Proprietary Substances and Nonfood Compounds (2004), which are available at www.nsf.org/. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements for appropriate use, ingredient review and labeling verification.

This device is acceptable for use as an ozone generating device providing sanitation and disinfection to hard, inanimate, pre-cleaned surfaces, in and around food processing areas (P1). A potable water rinse is not required following the use of this device on previously cleaned hard surfaces provided that the surfaces are adequately drained before contact with food. The device must only be used in a manner consistent with the manufacturer's labeling and use instructions.

Registration for this device is based upon documentation indicating that it meets all necessary requirements including labeling, establishment registration, and safety requirements set forth under Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) of June 5, 1947, Section 2(q)(1) and Section 7.

This device is NSF Registered when the NSF Registration Number, Category Code, and Registration Mark appear on the NSF-approved product label. The NSF Registration Mark can be downloaded from the NSF website, at http://www.nsf.org/business/about_NSF/nsf_marks_download.asp.

Registration of this devise by NSF International is in no way to be construed as an endorsement of the device, appropriate selection for use, or of any performance or efficacy claims made by the manufacturer.

NSF Listing of all registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at http://www.nsf.org/. Changes in formulation or label, without the prior written consent of NSF, will void registration, and will supersede the on-line listing.

Sincerely,

Carmen Grindatti  
NSF Nonfood Compounds Registration and Listing Program
