Certificate of Registration

McLaughlin Gormley King Company has achieved Registration status for PYROCID[®]E Fogging Concentrate 7446 to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2022) .

PYROCID[®]E Fogging Concentrate 7446

Category Code: F1

NSF Registration No. 137606

This product is acceptable as a pesticide for use in all areas of official establishments operating under the Federal meat, poultry, shell egg grading, and egg products inspection programs (F1). Compounds used at dilutions containing more than one percent synergists must be dispensed as an aerosol spray in edible product areas. Compounds used at dilutions containing more than five percent combined synergists may not be dispensed in edible product areas. Before using this pesticide compound, exposed food products and packaging materials must be removed from the room or protected. After using this compound, equipment and utensils must be washed with an effective cleaning compound and thoroughly rinsed with potable water before operations are resumed. Before food products may be placed in the area where the material is being used, the area should be sufficiently free of odor to prevent product contamination.

Registration of this product is current when the NSF Registration Mark and Category Code appear on the product label reviewed by NSF, and the Registered product name is in the NSF White Book[™] (www.nsfwhitebook.org).

Listing of all registered nonfood compounds by NSF International is not an endorsement of those compounds or of any performance or efficacy claims made by the manufacturer.
