NSF Nonfood Compounds
Registration Program

Company No: N10861

SYSTEM PURGE

Category Code: H2, P1

NSF Registration No. 139189

This product is acceptable as a lubricant where there is no possibility of food contact (H2) in and around food processing areas. Such compounds may be used as lubricants, release agents, or antirust films on equipment and machine parts in locations in which there is no possibility of the lubricant or lubricated part contacting edible products.

This product is acceptable for use as a purging/cleaning compound (P1), for use in and around food processing areas. The product must only be used in a manner as to endure that it will have neither direct nor indirect contact with food or potable water.

Use must also be consistent with the manufacturer's directions and warnings.

Registration of this product is current when the NSF Registration Mark and Category Code appear on the product label reviewed by NSF, and the Registered product name is in the NSF White Book™ (www.nsfwhitebook.org).

Listing of all registered nonfood compounds by NSF International is not an endorsement of those compounds or of any performance or efficacy claims made by the manufacturer.
