RE: GREEN DENATURANTS  
Category Code: 4B, 4D  
NSF Registration No. 143367

Dear Ms. Laura Schwartz:

NSF has processed the application for Registration of **GREEN DENATURANTS** to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2009), which are available at [www.nsfwhitebook.org](http://www.nsfwhitebook.org). The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

**This product is acceptable for denaturing carcasses, parts thereof, meat, and meat food products (4B) intended for disposal for purposes other than human food. The denaturant must be deposited in all portions of the carcasses or product to the extent necessary to prevent its use for food purposes**

**This product is acceptable for denaturing poultry and poultry products (4D) intended for disposal for purposes other than human food. The denaturant must be deposited in all portions of the carcasses or product to the extent necessary to prevent its use for food purposes.**

NSF Registration of this product is current when the NSF Registration Number, Category Code, and Registration Mark appear on the NSF-approved product label, and the Registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website ([www.nsfwhitebook.org](http://www.nsfwhitebook.org)). The NSF Registration Mark can be downloaded by clicking the "Download Registration Mark" link on the NSF website ([www.nsfwhitebook.org](http://www.nsfwhitebook.org)).

NSF Listing of all Registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at [www.nsfwhitebook.org](http://www.nsfwhitebook.org). Changes in formulation or label, without the prior written consent of NSF, will void Registration, and will supersede the on-line listing.

Sincerely,

Clifton Mclellan
