RE: SCOTT® Green Certified Foam Skin Cleanser
Category Code: E1
NSF Registration No. 146409

Dear Mr. Richard Wolfe:

NSF has processed the application for Registration of **SCOTT® Green Certified Foam Skin Cleanser** to the *NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds* (2017), which are available upon request by contacting NonFood@nsf.org. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

This product is acceptable as a hand washing compound for use in official establishments operating under the Federal meat, poultry, shell egg grading, and egg products inspection programs (E1).

The compound must be dispensed from adequate dispensers located a sufficient distance from the processing line to preclude accidental product contamination. After the use of the compound, the hands must be thoroughly rinsed with potable water. Under condition of use, there can be no odor or fragrance left on the hands.

NSF Registration of this product is current when the NSF Registration Mark and Category Code appear on the NSF-approved product label, and the Registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website (www.nsfwhitebook.org).

NSF Listing of all Registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at www.nsfwhitebook.org. Changes in formulation or label, without the prior written consent of NSF, will void Registration, and will supersede the on-line listing. Please contact your NSF Project Manager or nonfood@nsf.org if you have any questions or concerns pertaining to this letter.

Sincerely,

Carolyn Gilliland
