## NSF International / Nonfood Compounds Registration Program

---

October 31, 2014

Mr. Luis Paulin Nardoni  
Quimica Vita S.A. de C.V.  
Vidriera Querétaro No. 6  
Fraccionamiento Industrial "El Pueblito"  
Corregidora, Querétaro 76900  
Mexico

RE: DPA - 100  
Category Code: 3B, 3C  
NSF Registration No. 150581

Dear Mr. Luis Paulin Nardoni:

NSF has processed the application for Registration of **DPA - 100** to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2013), which are available upon request by contacting [NonFood@nsf.org](mailto:NonFood@nsf.org). The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

**This product is acceptable for use as a Hog Scalding Agent (3B), provided that it is used according to the manufactures use instructions, it is labeled in accordance with CFR Title 9, Section 381.1(d), and the product will be removed by subsequent rinsing with potable water during dressing operations.**

**This product is acceptable for use as a tripe processing substance (3C). This product is typically used in the denuding, bleaching, or neutralizing of tripe. This product may be used at a level sufficient for the purpose, provided that the substance will be removed by subsequent rinsing with potable water during dressing operations.**

NSF Registration of this product is current when the NSF Registration Number, Category Code, and Registration Mark appear on the NSF-approved product label, and the Registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website ([www.nsfwhitebook.org](http://www.nsfwhitebook.org)).

NSF Listing of all Registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at [www.nsfwhitebook.org](http://www.nsfwhitebook.org). Changes in formulation or label, without the prior written consent of NSF, will void Registration, and will supersede the on-line listing. Please contact your NSF Project Manager or [nonfood@nsf.org](mailto:nonfood@nsf.org) if you have any questions or concerns pertaining to this letter.

Sincerely,

Bradley Lampe  
NSF Nonfood Compounds Registration Program
