Canton, OH 44706
United States

RE: ALGRIP® CARBON STEEL
Category Code: P1
NSF Registration No. 159230

NSF has processed the application for Registration of **ALGRIP® CARBON STEEL** to the *NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds* (2017), which are available upon request by contacting NonFood@nsf.org. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

This product is acceptable for use as a non-slip surface (P1) on metal plates, bar grating, ladder rungs, ladder rung covers, stair nosings, plate stair treads, stair tread repair covers, bar grating stair treads, trench covers, expansion joint covers, drain covers and floor scales, in and around food processing areas. The product and associated materials should be used in a manner which prevents contact with food or potable water. The product must only be used in a manner consistent with the manufacturer's directions and warnings.

NSF Registration of this product is current when the NSF Registration Mark and Category Code appear on the NSF-approved product label, and the Registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website (www.nsfwhitebook.org).

NSF Listing of all Registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF website, at www.nsfwhitebook.org. Please note the letter date reflects most recent product review. NSF utilizes annual verification to ensure no changes have been made to a registered product. Changes in formulation or label, without the prior written consent of NSF, will void Registration, and will supersede the on-line listing. Please contact your NSF Account Manager or nonfood@nsf.org if you have any questions or concerns pertaining to this letter.

Sincerely,

Amy Wirges
