Certificate of Registration

KEEEN Biotech Group Co., Ltd. has achieved Registration status for KF501 to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2022) .

KF501

Category Code: 3D, 5C

NSF Registration No. 164890

This product is acceptable for use in meat, poultry, and other food processing areas as a Fruit and Vegetable Washing Product (3D), when used to wash fruits and vegetables that will become ingredients of meat, poultry, and rabbit products. After using the substance, the fruits and vegetables must be rinsed thoroughly with potable water. Such use requires following the respective label instructions, and shall utilize the minimum amount sufficient for the purpose.

This product is acceptable for us as an aqueous solution of sodium chlorite (5C) to be acidified with a GRAS acid used in accordance with 21 CFR section 173.325. The additive is to be used at levels that result in sodium chlorite concentrations between 500 and 1,200 ppm in combination with any GRAS acid at levels sufficient to achieve a solution pH of 2.5 to 2.9. Use must also be consistent with the manufacturer's directions and warnings.

This product is exclusively for sale and distribution outside the United States.

Listing of all registered nonfood compounds by NSF International is not an endorsement of those compounds or of any performance or efficacy claims made by the manufacturer.
