NSF Nonfood Compounds
Registration Program
Company No: N06386

Certificate of Registration

Spartan Chemical Company, Inc. has achieved Registration status for FP PRO Food Contact Sanitizer to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2022)

FP PRO Food Contact Sanitizer

Category Code: D2

NSF Registration No. 168607

This product is acceptable for use as a sanitizer on all surfaces not always requiring a rinse (D2) in and around food processing areas. Before using this compound, food products and packaging materials must be removed from the room or carefully protected. A potable water rinse is not required following the use of this compound on previously cleaned hard surfaces provided that the surfaces are adequately drained before contact with food so that little or no residue remains which can adulterate or have a deleterious effect on edible products. A potable water rinse is required following use of this compound under conditions other than those stated above. The compound must always be used according to applicable label directions.

Registration of this product is current when the NSF Registration Mark and Category Code appear on the product label reviewed by NSF, and the Registered product name is in the NSF White Book™ (www.nsfwhitebook.org).

Listing of all registered nonfood compounds by NSF International is not an endorsement of those compounds or of any performance or efficacy claims made by the manufacturer.
