NSF Nonfood Compounds
Registration Program
Company No: C0227648

Certificate of Registration

Morton Salt Inc. has achieved Registration status for Morton Pure and Natural Plus Rust Defense Water Softening Crystals to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2022) .

Morton Pure and Natural Plus Rust Defense Water Softening Crystals

Category Code: C1, P1

NSF Registration No. 169046

This product is acceptable for use in inedible product processing areas, nonprocessing areas, and/or exterior areas of food processing establishments (C1) provided that it is not used to mask odors resulting from unsanitary conditions, and that any characteristic odor or fragrance does not penetrate into an edible product area. When used on equipment that will be returned to a food processing area, the product must be completely washed off and rinsed with potable water before returning to the processing area.

This product is acceptable for regeneration of ion exchange resins (P1). The compound must be used in a manner which prevents direct or indirect contamination of edible products.

Registration of this product is current when the NSF Registration Mark and Category Code appear on the product label reviewed by NSF, and the Registered product name is in the NSF White Book™ (www.nsfwhitebook.org).

Listing of all registered nonfood compounds by NSF International is not an endorsement of those compounds or of any performance or efficacy claims made by the manufacturer.
