NSF Nonfood Compounds Registration Program

Company No: C0035951

## **Certificate of Registration**

Petroyag Ve Kimyasallar San. Tic. A.S. has achieved Registration status for OCTOPUS NW 922 PLUS to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2022).

## **OCTOPUS NW 922 PLUS**

Category Code: S3, S4

NSF Registration No. 169857

This product is acceptable for use as a adhesive (S3) in and around food processing areas. This product may be used in contact with food only as described in 21 CFR section 175.105. Use must be consistent with manufacturer's directions and warnings. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.

This product is acceptable for use as an adhesive (S4) in and around food processing areas. The product must only be used in such a manner as to ensure it will have neither direct nor indirect contact with food or potable water. Before using this compound, food products and packaging materials must be removed from the area or carefully protected. This compound must be used in a manner so that all odors associated with the compound are dissipated before food products or packaging materials are re-exposed in the area. Use must also be consistent with the manufacturer"s directions and warnings.

Registration of this product is current when the NSF Registration Mark and Category Code appear on the product label reviewed by NSF, and the Registered product name is in the NSF White Book<sup>TM</sup> (www.nsfwhitebook.org).

Listing of all registered nonfood compounds by NSF International is not an endorsement of those compounds or of any performance or efficacy claims made by the manufacturer.
