FORCE MAX

Category Code: D1

NSF Registration No. 170211

This product is acceptable for use as a sanitizer on all surfaces always requiring a rinse (D1) in and around food processing areas. Before using this compound, food products and packaging materials must be removed from the room or carefully protected. A potable water rinse is always required following the use of this compound. The compound must be used in a manner which does not result in the contamination of food products subsequently processed and must be consistent with the directions on the EPA registered label.

This product is exclusively for sale and distribution outside the United States.

Registration of this product is current when the NSF Registration Mark and Category Code appear on the product label reviewed by NSF, and the Registered product name is in the NSF White Book™ (nsfwhitebook.org).

Listing of all registered nonfood compounds by NSF International is not an endorsement of those compounds or of any performance or efficacy claims made by the manufacturer.
