NSF Nonfood Compounds  
Registration Program

Company No: C0792645

# Certificate of Registration

Quimica e Ingenieros Consultores S.A. de C.V. has achieved Registration status for Silad PDMS 350 to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2022) .

## Silad PDMS 350

Category Code: 3H, 5A

NSF Registration No. 170534

**This product is acceptable for use as a Release Agent (3H) on grills, ovens, loaf pans, boning benches, chopping boards, or other hard surfaces in contact with meat and poultry food products to prevent food from adhering during processing. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.**

**This product is acceptable for use as an Antifoaming Agent (5A) for controlling foam in soups, stews, rendered fats, and curing pickles. This product must be used in a manner which ensures the dimethylpolysiloxane concentration does not exceed 10 parts per million in the food. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling review.**

Registration of this product is current when the NSF Registration Mark and Category Code appear on the product label reviewed by NSF, and the Registered product name is in the NSF White Book™ ([www.nsfwhitebook.org](http://www.nsfwhitebook.org)).

Listing of all registered nonfood compounds by NSF International is not an endorsement of those compounds or of any performance or efficacy claims made by the manufacturer.
