NSF Nonfood Compounds
Registration Program

Company No: C0806859

Certificate of Registration

SANMING HEXAFLUO CHEMICALS CO., LTD has achieved Registration status for Ethyl nonafluoroisobutyl ether to the NSF International Registration Guidelines for Proprietary Substances and Nonfood Compounds (2022) .

Ethyl nonafluoroisobutyl ether

Category Code: K1, KX

NSF Registration No. 172980

This product is acceptable for use as a cleaner or degreaser for use in non food processing areas (K1), which are used to remove oil, wax, resinous materials, or other substances not removable by using acidic or alkaline cleaning agents. Their use is limited to nonprocessing areas where there is no possibility of solvent vapors entering a processing area. Food processing equipment or utensils treated with such preparations must be washed with an acceptable detergent solution and thoroughly rinsed with potable water before returning to a processing area.

This product is acceptable as an ingredient for use in specialty cleaners (KX). Due to the nature of some ingredients, they may not be acceptable for use in some types of products. Formulations containing NSF Registered ingredients are not considered NSF Registered products. A separate application is required for each final product. Formulators using NSF Registered ingredients need only identify the trade name, NSF Registration number, and concentration within the finished product on the application form.

Registration of this product is current when the NSF Registration Mark and Category Code appear on the product label reviewed by NSF, and the Registered product name is in the NSF White Book™ (www.nsfwhitebook.org).

Listing of all registered nonfood compounds by NSF International is not an endorsement of those compounds or of any performance or efficacy claims made by the manufacturer.
